Why Choose Us

QUALITY AND VALUE

RealExamFree Practice Exams are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development - no all dumps.

TESTED AND APPROVED

We are committed to the process of vendor and third party approvals. We believe professionals and executives alike deserve the confidence of quality coverage these authorizations provide.

EASY TO PASS

If you prepare for the exams using our RealExamFree testing engine, It is easy to succeed for all certifications in the first attempt. You don't have to deal with all dumps or any free torrent / rapidshare all stuff.

TRY BEFORE BUY

RealExamFree offers free demo of each product. You can check out the interface, question quality and usability of our practice exams before you decide to buy.

Customer Reviews

I wasted a lot of money and failed twice. Thanks to HPE0-J78 exam collection I pass now.

Noel

realexamfree is a reliable company. I pass exam at first shot. Many thanks

Julie

Pass BIMF.EN successfully. Really good dumps. It saves me a lot of time. Wonderful!

Ahern

online test engine is very useful for me, because i could practice the C-TERP10-67 question dumps in my phone when i was waiting or on the bus even without internet, i could make the most of my time. Last week, i passed the C-TERP10-67. so i want to share the realexamfree with you guys. hope you will get a good result in test.

Carl

Title : Core Solutions of Microsoft
Lync Server 2013

Vendors : Microsoft

Version : DEMO

NO.1 You have a Lync Server 2010 infrastructure that contains an Edge Server named Edge1. Five hundred

remote users connect to Edge1 from the Internet. Each user has a SIP address that uses a suffix of @contoso.com. You deploy an Edge Server named Edge2 that has Lync Server 2013 deployed. You create a host (A) record that points to edge2.contoso.com. You need to ensure that 20 remote users connect to Edge2. All other remote users must continue to connect to Edge1. What should you do?

- A. Create a service location (SRV) record that points to edge2.contoso.com.
- B. Instruct the users to modify the Advanced Connection Settings of their Microsoft Lync client.
- C. Create an alias (CNAME) record that points to edge2.contoso.com.
- D. Instruct the users to modify the sign-in address of the Microsoft Lync client.

Answer: B

NO.2 Your company has a main office and a branch office. The main office has 3,000 users. The branch office

has 100 users. The offices are connected via a WAN link. You have a Lync Server 2013 infrastructure. The main office has a pool named Pool1 that contains two Enterprise Edition Front End Servers. The branch office only contains an Active Directory domain controller and a file server. You need to recommend a high-availability solution to ensure that users can establish calls if one of the following

components fails:

• A Front End Server

• A PSTN gateway

• A WAN router The solution must minimize deployment and maintenance costs. What should you recommend?

A. In the branch office, deploy an SBA named SBA1. Configure SBA1 to use Pool1 as a backup registrar.

Configure two trunks in Pool1. Configure one trunk in SBA1.

B. In the branch office, deploy a second Enterprise Edition pool named Pool2. Configure Pool1 to use

Pool2 as a backup pool. Configure one trunk in Pool1. Configure one trunk in Pool2.

C. In the branch office, deploy a second Enterprise Edition pool named Pool2. Configure Pool1 to use

Pool2 as a backup pool. Configure two trunks in Pool1. Configure two trunks in Pool2.

D. In the main office, deploy a second Enterprise Edition pool named Pool2. In the branch office, deploy

an SBA named SBA1. Configure SBA1 to use Pool2 as a backup registrar. Configure two trunks in Pool1.

Configure two trunks in SBA1.

Answer: A

NO.3 [DRAG And DROP]

You have a Lync Server 2013 infrastructure that contains two servers. The servers are configured as shown in the following table.

You deploy a new server named lync3.contoso.com. You plan to install the Edge Server role on

Lync3.

You need to identify which tasks must be performed to install the Edge Server role on Lync3. Which four actions should you identify? To answer, move the four appropriate actions from the list of actions to the answer area and arrange them in the correct order.

- A. From Lync1, modify the topology by using the Topology Builder.
- B. From Lync1, publish the topology by using the Topology Builder.
- C. On Lync3, install Lync Server 2013.
- D. From Lync1, run the Export-CsConfiguration cmdlet.
- E. From Lync3, run the Import-CsConfiguration cmdlet.

Answer: ADE

NO.4 You have a Lync Server 2013 infrastructure. You create a new common area phone. You need to configure the common area phone for hot desking. The solution must enable hot desking for the common area phone only. What should you do?

- A. Create a per-user voice policy and assign the policy to a Phone object.
- B. Create a per-user client policy and assign the policy to a Phone object.
- C. Modify the global client policy.
- D. Modify the global voice policy.

Answer: B

NO.5 You have a Lync Server 2013 infrastructure. You plan to deploy an archiving solution. Your company

has a compliance policy that has the following requirements:

✕ Instant messaging (IM) conversations between external users and the members of a group named Traders must be archived.

✕ IM conversations between external users and the members of a group named HR must be archived

✕ The internal IM conversations of all other users must be archived. You need to configure archiving policies to meet the compliance policy requirements. Which three actions should you perform? (Each

correct answer presents part of the solution. Choose three.)

- A. Configure the global archiving policy to archive internal and external IM conversations.
- B. Create a site-level archiving policy that is configured to archive internal and external IM conversations.
- C. Create a user-level archiving policy that is configured to archive external IM traffic. Assign the policy to the Traders group.
- D. Create a user-level archiving policy that is configured to archive internal and external IM traffic. Assign the policy to the HR group.

E. Configure the global archiving policy to archive internal IM conversations.

Answer: ACD
