Why Choose Us

QUALITY AND VALUE

RealExamFree Practice Exams are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development - no all dumps.

TESTED AND APPROVED

We are committed to the process of vendor and third party approvals. We believe professionals and executives alike deserve the confidence of quality coverage these authorizations provide.

EASY TO PASS

If you prepare for the exams using our RealExamFree testing engine, It is easy to succeed for all certifications in the first attempt. You don't have to deal with all dumps or any free torrent / rapidshare all stuff.

TRY BEFORE BUY

RealExamFree offers free demo of each product. You can check out the interface, question quality and usability of our practice exams before you decide to buy.

Customer Reviews

I wasted a lot of money and failed twice. Thanks to HPE0-J78 exam collection I pass now.

Noel

realexamfree is a reliable company. I pass exam at first shot. Many thanks

Julie

Pass BIMF.EN successfully. Really good dumps. It saves me a lot of time. Wonderful!

Ahern

online test engine is very useful for me, because i could practice the C-TERP10-67 question dumps in my phone when i was waiting or on the bus even without internet, i could make the most of my time. Last week, i passed the C-TERP10-67. so i want to share the realexamfree with you guys. hope you will get a good result in test.

Carl

Exam : HP0-J41

Title : Implementing HP StorageWorks
P2000 Solutions

Vendors : HP

Version : DEMO

NO.1 What is the correct definition of the P2000 G3 Remote Snap?

- A. a synchronous, controller-based replication process based on Volume Shadow Services
- B. an asynchronous, software-based replication process based on Volume Shadow Services
- C. a synchronous, controller-based replication process based on snapshot technology
- D. an asynchronous, controller-based replication process based on snapshot technology

Answer: D

NO.2 On the P2000 combo iSCSI/FC controller, how do iSCSI and Fibre Channel ports differ? (Select two.)

- A. The iSCSI ports require an IP address.
- B. FC ports require a Logical Unit Number.
- C. The iSCSI ports are 10Gb/s while the FC ports are 8Gb/s.
- D. The FC ports are 8Gb/s while the iSCSI ports are 1Gb/s.
- E. The controller has more iSCSI ports than FC ports.

Answer: AC

NO.3 What is a benefit of the P2000 G3 FC array?

- A. 8GB cache per controller
- B. built-in Remote Snap capability allowing replication over FC
- C. support for 128 snapshots included in base license
- D. choice of 8Gb/s FC or combo FC/iSCSI controllers

Answer: D

NO.4 What must you do before you update expansion module firmware on a single-controller P2000 G3 system?

- A. Stop I/O to all vdisks.
- B. Set the failover policy.
- C. Segregate the module from the controller.
- D. Update the enclosure management processor (EMP) firmware first.

Answer: A

NO.5 When implementing a P2000 G3 solution with a single 8Gb/s FC controller, what are advantages of a fabric topology over direct connect?

- A. supports multiple paths
- B. provides storage access from iSCSI adapters
- C. supports more storage

D. provides storage access for more hosts

Answer: D

NO.6 Which entity must be created for Remote Snap replication in a P2000 G3 environment?

A. data replication group

B. mirror set

C. replication set

D. snap group

Answer: C

NO.7 When you add an expansion module to a P2000 G3 MSA, which HP recommended action should you take?

A. Configure the storage before you cable the expansion module to the controllers.

B. Update the SMI-S embedded processor firmware before you configure the module.

C. Install the Storage Management Utility on the new module.

D. Set all enclosure management processors to the same firmware level.

Answer: B

NO.8 Which type of volume replication can you define in Replication Setup Wizard in a P2000 G3 environment?

A. volume replication on a host agent basis

B. volume replication on the local system or to a remote system

C. volume replication on the local system but not to a remote system

D. volume replication to a remote system exclusively

Answer: B

NO.9 What is considered an iSCSI initiator in a P2000 G3 MSA implementation?

A. volumes

B. Ethernet switches

C. combo FC/iSCSI controllers

D. server hosts

Answer: D

NO.10 What are benefits of the P2000 G3 Storage Array compared to the G2 version? (Select two.)

A. 6Gb SAS architecture

- B. 512 snapshot functionality as standard
- C. drive spin-down capability
- D. scalability to 149 LFF drives
- E. scalability to 96 SFF

Answer: BC
